

All products sold by TelcoBridges Inc. ("TelcoBridges") are covered by this Product Warranty to the exclusion of any other warranty.

1. Hardware products – Limited warranty

TelcoBridges warrants that for a period of 12 months from the date of original shipment of the hardware products by TelcoBridges, the hardware products shall be free from defects in material and workmanship under normal operating conditions.

During the warranty period (original warranty and/or extended warranty period), TelcoBridges will advance replace products (shipping within 5 days of accepting the RMA claim). The replacement product you receive may be a new or refurbished TelcoBridges product.

During the limited hardware warranty period, upon proper notice to TelcoBridges, TelcoBridges will, at its option, either:

1. Repair and return the defective hardware;
2. Replace the defective hardware with a new or refurbished component;
3. Replace the defective hardware with a different but similar component that contains compatible features and functions.

All product returns require a Return Material Authorization ("RMA") number* which can be obtained from TelcoBridges or through your authorized reseller, if applicable. If you have purchased the product through an authorized reseller, any claim pursuant to this Product Warranty should be made to your reseller. Product returns without a valid RMA will be rejected.

- Your name, company name, telephone and fax numbers and email address
- Proof of purchase (serial number of the product to be returned)
- Reason for the product return
- Your return shipping address

RMA numbers are valid for thirty (30) days and are associated with a product serial number. RMA numbers older than ten (10) days need to be revalidated by calling the TB Support Team before the product is returned.

Once an RMA number has been issued, a confirmation email or fax will be sent to you detailing the RMA number, product authorised for return, together with shipping instructions. Client is responsible for the risk of loss and shipping and handling fees when returning products.

It is preferable that the original packaging, including any anti-static and foam wrapping be used on all returned product. Should the original product packaging not be available, then adequate packaging should be used taking into account the method of shipment of the returned product. You are responsible for delivering the product to TelcoBridges safely and undamaged.

The RMA number should be clearly marked on all returned product, boxes, packages and accompanying paperwork. RMAs received by TelcoBridges that are not clearly marked may experience processing delays.

We recommend that all returned products be insured and that a tracking number be obtained for the shipment. To speed up the RMA procedure, the tracking number should be sent to the TelcoBridges TB Support Team as soon as the package is shipped.
